## 4. CUSTOM BUILD

We know design ideas can take shape in so many ways. A hand-drawn sketch, a page from a magazine, even a list of your home's must-have features. Our flexible approach means you can add in a larger than life kitchen, a billiard room or bar, a tennis court, or a fifth bedroom. Our Bold professionals will be happy to work with you to customise and create exactly what you want.

## your personalised design journey

We've always believed that a house can be a lifelong romance, the perfect environment you see in your mind's eye fall in love with completely when it's finished.

To achieve that, we want to get to know you. Everything about how you like to live, if you love to entertain, if home to you is a sanctuary and a place to retreat.

Sitting down with you helps us come up with a personalised design brief, the roadmap that outlines every milestone of the journey you're on and fills in all the triumphant details.

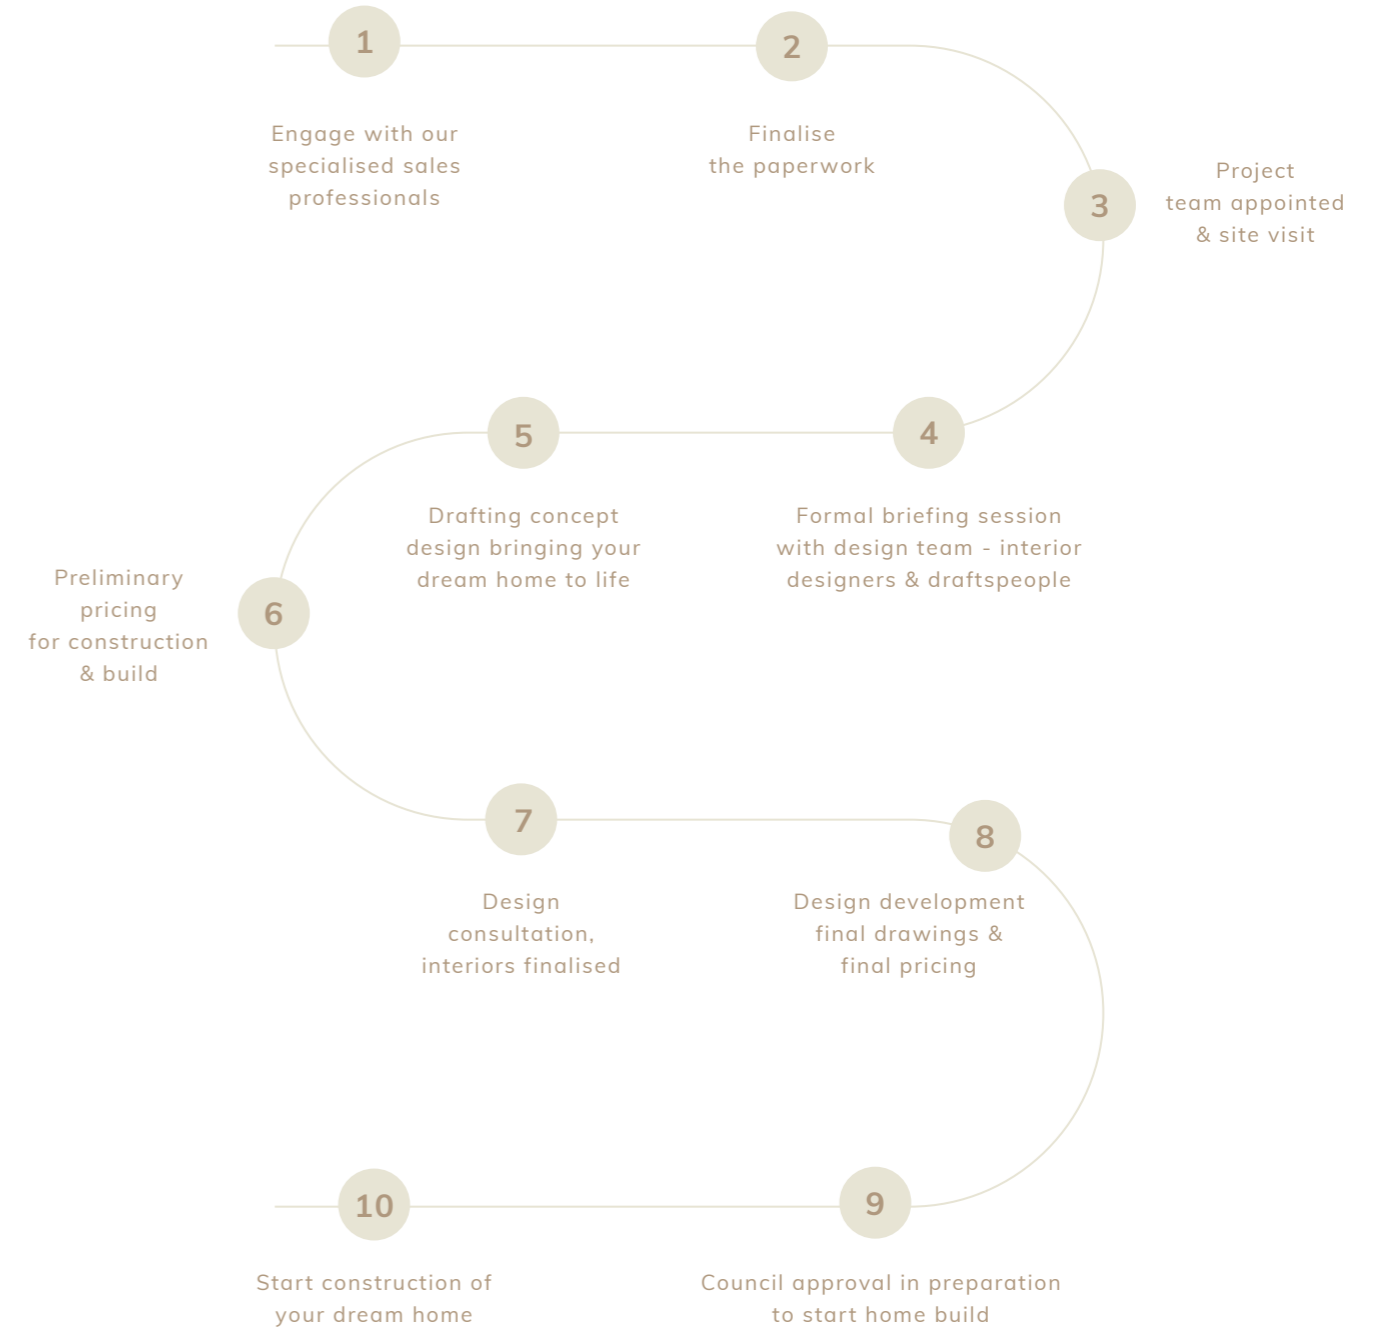

Together, we'll build the individual, original home that speaks your heart and soul.

Integrating your dreams with our expertise is a clearly defined process. Every step of the way is fully mapped out, so there are no surprises and you're always in the loop.
